

Highlights of 2013 Results

- 1. In May 2013, the Group spun off its three hotels in Hong Kong and created the Langham Hospitality Investments (LHI), in which the Group retained a 58% interest. Net proceeds from the spin-off exercise came to HK\$10.3bn for the Group.
- 2. Following which, the Group completed the acquisition of a hotel in New York, and then announced our intention to acquire and complete the acquisition of a prime office property in downtown San Francisco.
- 3. Last but not least, we launched the pre-sale of the residential apartments in our Dalian mixed-use development project in September 2013.
- 4. Although core earnings in 2013 were impacted by several factors, including i) lower attributable income from the spun off Hong Kong hotels, ii) booking of pre-opening and re-branding expenses for our hotels in North America and iii) an increase in administration expense in association with the spin off exercise, as well as professional fees incurred on feasibility studies for various projects.
- 5. Furthermore, there was an increase in losses from a joint venture, due to increased marketing costs associated with the presale and higher interest expense, which both contributed to the decrease in core profit.
- 6. Overall, core profit attributable to shareholders amounted to HK\$1,679.9 million, representing a decline of 6.8% year-on-year.

Great Eagle Centre

- On the back of sustaining demand from Mainland Chinese companies and to a lesser extent, relocation demand from Central tenants, asking rents for the office portion remained stable at between HK\$60 to HK\$73 per sq. ft. on lettable floor area throughout 2013.
- As such, average passing rent at the Great Eagle Centre went from HK\$58.9 per sq. ft. as of December 2012 to HK\$62.9 per sq. ft. as of December 2013.
- However, given the Group's planned strategy to relocate its hotel management subsidiary from Langham Place office tower to Great Eagle Centre from January 2014, this had resulted in increased downtime on certain office space when their leases expired during 2013.
- Overall, gross rental income for Great Eagle Centre increased 11.9% to HK\$143.0 million in 2013 (2012: HK\$127.7 million). However, net rental income was impacted by booking of additional expenses. These additional expenses are for the relocation and upgrading of the cooling water pumping facilities and other maintenance capital expenditure that cannot be capitalized.

Investment in the Champion REIT (2778.HK) & Langham Hospitality Investments (1270.HK)

Note that our core profit is based on dividend from Champion REIT and LHI in respective of the same financial period.

Outlook for Champion REIT's properties:

For Champion REIT, there should be some downside for the income of Citibank Plaza. Fortunately, strong rental growth at Langham Place property should be able to counteract the potential weakness at Citibank Plaza. However, higher interest costs may once again hold back the growth in distributable income.

Outlook for LHI's properties:

For the three hotels owned by LHI, they have all witnessed an increase in RevPAR in the first six weeks of 2014. Booking pace is supporting growth trend into March 2014. However, with little visibility on future demand, macroeconomic trends of the major feeder markets will still play a key role in determining RevPAR growth for the Hong Kong hotels in 2014.
